Professional Summary

BSc IT graduate focused on frontend and full-stack web development, with hands-on experience building production-style applications using React, TypeScript, PHP, MySQL, and REST APIs. Developed a collaborative learning platform and a VS Code extension, demonstrating end-to-end ownership across design, development, deployment, and maintenance.

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React, Tailwind CSS

Backend & Database: MySQL, REST APIs

Tools & Platforms: Git, GitHub, Docker, Vercel

Projects

ThinkTrack — Learning & Productivity Platform — github.com/afnanlabs/thinktrack Nov 2025 – Feb 2026

- Developed a full-stack collaborative web platform using **PHP, MySQL, and JavaScript**, delivering responsive UI across desktop, tablet, and mobile devices.
- Implemented Google OAuth authentication and role-based access control supporting 2 distinct user roles with secure access to classroom and productivity features.
- Designed and implemented a MySQL database schema with 15+ relational entities supporting collaboration, resource sharing, task management, and role-based workflow.
- Integrated **PHPMailer** for automated email workflows and applied responsive design principles to maximize usability and cross-device compatibility.
- Developed 10+ core modules including focus mode, study planner, notes management, resource sharing, classroom collaboration, and task organization features

CodeGlow — VS Code Persistent Code Highlighter — github.com/afnanlabs/CodeGlow-exe May – Jun 2026

- Developed a VS Code extension in TypeScript enabling persistent color-coded code annotations through native **Command Palette** and editor context menu integrations.
- Engineered a custom highlight tracking system using serialized range data structures and VS Code event APIs, maintaining annotation accuracy across code edits and undo/redraw operations.
- Implemented persistent state management with the workspaceState API, enabling automatic restoration of highlights across sessions and workspace reloads.
- Designed a lightweight architecture leveraging the **VS Code Decoration API** for real-time rendering, delivering native editor integration with **zero backend dependencies**, webviews, or external services.
- Packaged and tested the extension as a production-ready **VSIX build**, preparing it for Visual Studio Marketplace distribution.

Education

D.G. Ruparel College, Mumbai

Bachelor of Science in Information Technology (BSc IT)

- CGPI: 6.83

Mumbai, India

2023 – 2026

Lala Lajpatrai Institute of Management, Mumbai

HSC — Commerce

- Percentage: 72.83%

Mumbai, India

2021 – 2023

Sacred Heart High School, Mumbai

SSC — Maharashtra State Board

- Percentage: 87.40%

Mumbai, India

2021

Certifications

HackerRank SQL (Intermediate) Certification — HackerRank

Docker Essentials: A Developer Introduction — IBM

Claude Code in Action — Anthropic
